Abstract

During the industrialization period of Azerbaijan, the fundamental factor of development is not the oil-gas sector. The manifestation of the main pace of their increase is use of the modern methods and technologies as well as means of doing business on the example of the recreational industry. The climate-forming factors of Azerbaijan and its geographical location is an important stage for building favorable recreation and tourism areas. For this purpose, the use of the modern technologies is relevant; as an example, it is advisable to use low-orbit satellites and different content transfer via them.

Keywords: Climate, Climate-Forming Factors, Recreation, Tourism, Low-Orbit Satellites, Wireless Power.
